Letter of support: free legal aid desks at district courts

The District Bar Association supports the proposal to open free legal aid desks in every district court. Our members see every week how people without representation struggle with civil procedure, and how many cases could be settled early with an hour of advice.

We commit to providing volunteer lawyers for two days a week at each desk during the first year, and to helping supervise law students on placement. We ask that the programme fund a full-time coordinator so that volunteer time is used well.

Yours faithfully,

Secretary, District Bar Association
